

# UL Solutions Shanghai Retail and Consumer Products Laboratory

# Welcome to UL Solutions Shanghai Retail and Consumer Products Laboratory

The retail landscape is transforming at an unprecedented pace, driven by shifts in consumer expectations, sourcing strategies, and the growing demand for sustainable and innovative products. At UL Solutions, we deeply understand the complexities and evolving needs of the retail industry. This drives our commitment to continuously advance our capabilities, expertise and infrastructure to help retailers succeed today and in the future.

Our product testing laboratory reflects this dedication — designed to support product innovation from the earliest design stages, integrate valuable consumer insights into quality assurance programs and empower retailers to navigate challenges with speed and confidence in an ever-changing market.

# Revolutionizing product testing for a dynamic market

The UL Solutions Shanghai Retail and Consumer Products Laboratory is strategically located in one of the world's most vibrant regions for retail and consumer products; it's a first-class facility, poised to set new benchmarks for testing excellence.

From expanded services for health, wellness and beauty products to enhanced capacities for hardlines, softlines, footwear and toys, the Shanghai laboratory combines cutting-edge technology with UL Solutions' global expertise to empower manufacturers, brands and retailers.

# Retail and consumer product services

UL Solutions provides comprehensive digital, technical, and testing, inspection and certification (TIC) services tailored to the consumer and retail industry. Our expert-driven offerings help you demonstrate that your products meet safety, sustainability and regulatory standards, mitigate risk and support efficient time to market.

## We deliver:
