

UL Solutions offers approximately 400 standard regulatory-focused e-learning courses. Many of the GxP/FDA compliance courses were authored or reviewed by the U.S. Food and Drug Administration (FDA). Courses can be delivered integrated with ComplianceWire instances, or on a standalone basis in SCORM or AICC formats. Content updates are delivered as part of content license agreements.

UL Solutions has a fixed schedule of reviews and performs maintenance as necessary on our Catalog of Courses. Each course in our offering is assigned to a Subject Matter Expert (SME) who completes annual, biennial, or biannual review based on the frequency of changes to the body of regulations on which the course is based. In addition, UL Solutions' SMEs continually monitor and analyze regulatory agencies and related information sources for incorporation into courses.

Approximately one hundred courses are reviewed by SMEs each quarter. The SMEs determine if action needs to be taken on the content.

	Courses reviewed	Courses not requiring action	Course requiring action
2021	390	165	225
2022	366	220	146

UL Solutions is committed to providing regulatory accurate eLearning courses to our clients. Partner with us to deliver foundational GXP topics to your employees.
